To Whom it May Concern,

It's both my honour and pleasure to recommend Molly Gill for the consideration of a placement with in your University Program in America. I have had the pleasure of teaching Molly for the past four years at Warners Bay High School.

As Molly's teacher, I have tracked and observed her amazing academic progress firsthand and I believe that she's emerged as one of the high achieving students in our school.

Her academic achievements are very impressive. She has always achieved academic excellence awards in all core subjects. She has, for the past two years, achieved the Principal Diligence Award for her academic year group. Molly is a brilliant student and has a love and passion for deep learning and always strives for personal best. She always participates actively during class discussion, whilst working hard to achieve repeated outstanding results in all class assessment and in class tasks.

Molly doesn't only have a strong academic performance, but she also manages to enjoy her extracurricular activities as well. Molly participated as a successful member of the Hunter Region Softball Team, leading to her selection in the CHS Softball team, which is the highest achievement within school Softball. She has been recognised by her school sporting coaches as a well-rounded person which has contributed to her individual and team success.

Molly has had repeated success in and outside of school softball also. She is a Newcastle Representative which demonstrates her level of commitment , often having to travel long distances weekly for training and competitions. Molly has also been selected as a state representative and more recently has been selected in the Australian National squad. It is important to note that she has continued to succeed in her academic achievements despite her time and commitment required for her chosen sport.

At a personal level, Molly has a pleasant, warm, and friendly personality. Despite her busy schedule, I've noticed that she still manages to balance her academic and sport pursuits well. She demonstrates outstanding time management and organisational skills which have contributed to her success in all facets in life.

Molly's academic performance, skills and competence demonstrates her ability to successfully complete any course or program. She has proven herself to have the perseverance, initiative, and determination to succeed in any endeavor she chooses.

Molly is an exceptional candidate for a scholarship in a Division 1 College in America. and would be a fine addition to your program. If you have further questions or if you require any additional information, please feel free to contact me on (02) 4954 948 or at tanya.blaszczyk@det.nsw.edu.au.

Sincerely,

Tanya Blaszczyk
(Relieving Deputy Principal)
