

My name is Leigh Godfrey, and I am the current High-Performance coach in Western Australia, The Australian Institute of Sport GEN 32 Coach and I'm a softball Australia National Coach. I'm a former Australian National team player of 15 years, playing in 4 world championships (winning medals in 2012 and 2014) and I most recently played at the Olympics in Tokyo, Japan 2021.

I am writing to you on behalf of Kasey Shaw, who is a middle infielder within my program. Kasey has good glove skills and movement in the middle infield. She has great anticipation, moves laterally well and she is able to get great reads off the bat. Her defence is solid under pressure, and she continually takes control of the field and leads the infield in every play.

Kasey is consistent hitter with a great approach in the box. She produces quality at bats that constantly puts the defence under pressure. Kasey can hit both sides of the field as she is able to keep her hands inside the ball and drive the ball opposite field very well. Kasey's power in the box will continue to get better with her high level of commitment to her S&C program and full-time college program.

Kasey has been lifting for over 2 years now and has made significant improvements in her athletic strength, change of direction, arm strength and bat speed. With the assistance of a full-time college program, Kasey will continue to refine her craft and would be an asset to any program. She has the ability to influence and win games, while continuing to be a great leader.

Kasey is extremely coachable, and it is that asset that makes Kasey an extremely important player not only to our program but every program she is involved in. Her effort and attitude to try everything she is being taught is second to none. Kasey is going to consistently see improvement because she is prepared to put the work in and do what is required to be the best version of herself.

Thanks once again for taking to the time to read this letter. If you require any specific footage, statistics or lifting results please let me know. Please reach out with any questions you may have; I am contactable below by any form of communication below.

Kind Regards,  
Leigh Godfrey
